EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Douglas Grover (Reg. No. 52,974) on June 12, 2009.

The application has been amended as follows:

Please cancel claims 10-21 and 29-37.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

After a search and a thorough examination of the present amended application and in light of the prior art made of record, claims 2-4, 9, 22, and 25-28 are allowed.

The prior art of record neither teaches nor fairly suggests in combination elements as recited in the applicant's independent claims such as "one or more registers each comprising a ring buffer for simultaneously storing a set of a plurality of received data points of a corresponding time series, wherein at least one register comprises one or more windows each corresponding to a subset of the set of received data points of the register's corresponding time series and wherein the subset changes with each received data point of the corresponding time series, each window for maintaining statistics for the corresponding subset and updating the statistics via online

computation to account for data points of the corresponding time series moving into and out of the corresponding subset” and “at least one persistent query defines an event condition and a payload specification of the defined query and at least one or the event condition and the payload specification of the at least one persistent query is a function of the statistics maintained by at least one window of at least one of the corresponding trigger registers”.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
